MILITARY INTERVENE IN A COURT.

He is Prosecuting Col. Pleigant on the Charge of Forging and Using Forged Documents.

He Comes Forward as the Defender of the Army, the Prosecutor of its Supposed Enemies and Opposes a Revision of the Dreyfus Case.

At the present moment, when the political atmosphere is surcharged with dan-

TOBACCO WAR.

Liggett & Myers Tobacco Co. Makes a Ten Per Cent. Cut on All Their Brands—A Terrible Fight to Be Waged.

St. Louis, Sept. 23.—The Republic Friday will say: Tobacco manufacturers and dealers in St. Louis regard the 10 per cent. cut made by the Liggett & Myers Tobacco Co. on all its brands as the beginning of another terrible fight to be waged between the independent factories and the American Tobacco Co., commonly referred to as the trust. The fact that the Drummond Tobacco Co., of this city, has not made any reduction leads to the belief that the Continental deal will go through, even if it has not already been consummated and that the Drummond people will eat their lot with the combine.

SWORD TO BE PRESENTED TO ADMIRAL DEWEY BY THE AMERICAN GOVERNMENT.

United States. It is known that the troops of the 7th corps now under Gen. Lee, will be designated to go to Cuba and that troops from the camps at Lexington, Knoxville and Middletown, will be selected for Cuba duty. It is understood that Gen. Miles deals only with organizations, such as corps, divisions, brigades and regiments. The matter of commanding and staff officers will be settled after the time has out of general and staff officers has been determined.

The navy department has recently placed orders for forgings for naval rifles of calibers from four to 12 inch to supply the new battle ships, and in a short time the navy yard factory will begin to turn out ordnance embodying radical changes in construction and much more powerful than guns of the same caliber now afloat on our ships.

The ordnance officers have for several years realized the possibility of improving the present standard naval gun, effective as it is, but the time has not been opportune to do this, nor was the money available to undertake the change on a large scale until this year. The advent of smokeless powder has enabled to make the change possible. The new 13-inch gun will be as effective as the present 13-inch gun in range and striking force. This is achieved at the expense of weight, but the difference is still in favor of the new design. For instance, the present 13-inch guns weigh 46 tons, against 52 tons for the new gun. But this gun takes the place of a 13-inch gun which weighs 61 tons, so that a considerable saving is effected. About the same rate of gain is secured in all the lesser calibers. The new gun will send its projectile at the enormous velocity of 8,000 feet per second, which is about 50 per cent. greater than the velocity of the present 13-inch shell.

The ordnance officers say that there is a very erroneous idea prevalent as to the value of the ammunition shot away by Dewey at Manila and by Sampson's fleet at Santiago. Instead of this running up as high as \$80,000, as asserted in some quarters, the fact was that Dewey at Manila fired \$40,000 worth of ammunition and the North Atlantic fleet at Santiago, on July 3 and during the bombardments, not to exceed \$100,000.

gerous electricity, generated by the Dreyfus affair, the general who has just quitted the cabinet in defiance of civil authority, takes without consulting his successor or the premier, an important step. In ordinary circumstances, the military governor is empowered to act independently; but now that the Dreyfus question has become a great national matter, every proceeding in the affair has state importance.

Gen. Zurlinden's ignoring of this obvious fact is very significant. He comes forward as the defender of the army, the prosecutor of its supposed enemies and opposes a revision of the Dreyfus case. The documents in the case, it appears, consist entirely of fragments of letters referring to every thing except Dreyfus, and the whole matter, the Matin adds, "constitutes such a fairy tale that no sensible-minded person would dream of accepting it."
